

Dear Vickie & Jim,

It seems that Fall has arrived, and though we need moisture, we do hate to give up the lovely sunny days; so I had better not complain.

Our corn has only just ripened so Sunday Marilyn & family will be down to enjoy some of it. Rosy made peach ice cream last week & froze it because she knew the peaches wouldn't last. The peach season is over and oh, how good they were! I think Craig is even bringing his girl friend. I hope we don't scare her off.

"To everything there is a season..."

Ecclesiastes 3:1

My very best wishes,
much happiness too,
for such a nice couple
like the two of you.

I have had a virus or flu
for over a week but I'm beginning
to feel better so I haven't done
very much. I don't get a cold
very often for which I'm
thankful. I must take more
Vitamin C. That's the best
preventative.

If the weather holds I hope to get up to visit Dick (Ed's brother) who lives in Sequim. Willie & Ora might go with me. If it were in the summer I would go on to Victoria. Next year, maybe.

Every one here is fine though I miss Ken, Debbie & Kevin. Of course as families grow up we know we can't all be together. I'm just thankful to have such a wonderful family:

Hope you

are fine.
Much love,
Francie
